

Overview

The Component Video/IR Pass-Thru Balun (500054, 500055) allows one component video (YPbPr or RGB) signal and one IR emitter signal to be transmitted via one Category 5E/6 twisted pair cable for more cost-efficient cabling.

Used in pairs, the Component Video/IR Pass-Thru Balun supports 480i/p, 720p and 1080i/p video formats for commercial and residential hi-definition (HDTV) video applications.

Benefits

More cost efficient cabling
 Quicker moves, adds and changes
 Neater wiring
